# X.Org X11R7.6 on Darwin and Mac OS X

October 2009

## Table of Contents

Introduction ..... 1

## Introduction

X11R7.6™, a freely redistributable open-source implementation of the X Window System [<http://www.x.org/>] from the X.Org Foundation [<http://www.x.org/wiki/XorgFoundation>], has been ported to Darwin [<http://developer.apple.com/Darwin/>] and Mac OS X [<http://www.apple.com/macosx/>].

Most of the current work on X for Darwin and Mac OS X is centered around the XQuartz Project [<http://xquartz.macosforge.org/>] at MacOSforge [<http://macosforge.org/>]. If you are interested in up-to-date status, want to report a bug, or are interested in working on X11 for Darwin, stop by the project website at <http://xquartz.macosforge.org/>
